

High-Temperature Wheel Bearing NLGI 2 Lithium Complex Grease (HTBG)

Nulon High-Temperature Wheel Bearing Grease is suitable for a variety of automotive applications, from wheel bearing to general chassis lubrication. Nulon High-Temperature Wheel Bearing Grease is a water resistant blue coloured NLGI 2 lithium complex grease which has been formulated to provide improved oxidation control, wear protection and corrosion resistance compared to conventional greases.

Benefits:

- Reduces friction
- Prevents corrosion
- Water resistant
- Long life
- Reduces bearing wear
- Extreme pressure performance

Pack Sizes

Part No: HTBG-C
450 g cartridge - 9 per carton
Barcode: 9311090006423

Part No: HTBG-T
500g tub - 6 Per Carton
Barcode: 9311090006430
