

## Transmission and Differential Stop Leak (TDSL)

Seals, gaskets and o-rings can deteriorate over time, especially when exposed to wide temperature variations, dust, dirt and water ingress. Failure to fix leaks can lead to part failure and expensive repair bills. Nulon Transmission & Differential Stop Leak is a uniquely formulated product which works fast by rejuvenating seals, gaskets and o-ring elasticity to stop leaks and fluid seepage.

### BENEFITS

- Stops leaks fast
- Restores gaskets and seals
- Suitable for use with automatic and manual transmissions
- Suitable for early and late-model vehicles
- Helps to prevent future leaks and seal deterioration
- Conditions and protects seals and gaskets
- Extends transmission and differential life
- Helps reduce gear and bearing noise
- Reduces maintenance costs

### Directions for use

Simply add one bottle to the transmission, gearbox or differential.

### First Aid

**SAFETY:** Avoid contact with skin and eyes. If contact occurs, wash area thoroughly with soap and water. For advice, contact a Poisons Information Centre (e.g. phone Australia 13 11 26; New Zealand 0800 764 766) or a doctor (at once).

**ENVIRONMENT:** Harmful to aquatic life with long lasting effects. Do not pollute drains, soil or water with used products. After use, dispose of container in a responsible manner. Disposal of container should comply with local council regulations.

### Properties

#### Typical Properties

Test	Result
Density 20°C g/ml	0.890 @ 15°C
Viscosity 40°C cSt	9.9

### Pack Sizes

Part No: TDSL  
300 ml - 6 Per Carton  
Barcode: 9311090010253
