

## Diesel Guard (DG)

Diesel Guard is the ultimate diesel fuel additive designed to provide complete protection for your diesel engine. The advanced formulation prevents the build up of contaminants in fuel tanks and actively disperses water, algae and power robbing carbon deposits. With added Cetane Booster, Diesel Guard restores lost power and boosts the performance of all turbocharged and non-turbocharged diesel engines.

### Benefits

- Cleans and protects common rail and direct injection diesel fuel systems
- Cleans EGR valves
- Prevents rust and inhibits corrosion
- Prevents algae formation
- Disperses water contamination
- Contains added Cetane Booster to increase power and torque
- Reduces black smoke
- Promotes DPF efficiency
- Improves fuel efficiency

### Directions for use

Simply add Diesel Guard to your fuel tank at 1ml per litre of diesel fuel. For best results use each time you refuel.

TREATMENT RATE: 1ml to 1 litre of fuel.

#### HOW TO USE MEASURING CHAMBER:

Loosen cap on measuring chamber (only) just enough to allow air release (around half a turn).

Squeeze bottom of bottle to push fluid into the measuring chamber, releasing bottle once fluid reaches desired dosage, then remove cap from measuring chamber and pour fluid into fuel tank. Replace cap and tighten for storage.

### First Aid Instructions

FIRST AID: For advice, contact a Poisons Information Centre (Phone e.g. Australia 131 126; New Zealand 0800 764 766) or a doctor (at once).

### Pack Sizes

Part No: DG-1  
1 Litre - 6 Per Carton
