

Ethanol E85 Performance Fuel Treatment

Nulon Ethanol E85 Performance Fuel Treatment is formulated to protect fuel systems that have been designed or converted to run E85 fuel. Many high performance road and race cars, originally designed to run on unleaded fuel can suffer from damaging corrosion due to water contamination while using E85. This product prevents and inhibits rust and corrosion in the fuel tank, fuel lines and combustion chamber, while keeping injectors clean for optimal engine performance.

Benefits

- Prevents tank and fuel line corrosion
- Helps prevent water contamination
- Cleans injectors and combustion chambers from power robbing deposits
- Keeps E85 fuel fresh for up to 12 months
- Treats up to 100 Litres of fuel

Directions for use

If the fuel system is fouled or for first time use we recommend using 300ml for a total quick clean in one tank. For ongoing maintenance and corrosion protection add 300ml for up to 100 litres of fuel, or 3ml per litre of fuel.

Safety & First Aid

Safety Directions Avoid contact with eyes or skin. DO NOT SWALLOW. Keep out of reach of children. Combustible. Keep away from heat or flame. Do not breathe vapour. Wash hands thoroughly after use.

FIRST AID: For advice, contact a Poisons Information Centre (Phone e.g. Australia 131 126; New Zealand 0800 764 766) or a doctor (at once). If swallowed, do NOT induce vomiting. If in eyes, hold eyelids apart and flush the eye continuously with running water. If skin contact occurs, wash with running water.

Pack Sizes

Part No: E85
300 ml - 6 Per Carton
