

Ethanol Fuel Treatment (EFST)

Nulon Ethanol Fuel Treatment is specifically designed to provide fuel system protection for vehicles using E10 and E85 fuels. This product prevents and inhibits rust and corrosion in the fuel tank, fuel lines and combustion chamber while keeping injectors clean for optimal engine performance. The advanced additive technology also stabilises ethanol fuel keeping it fresh for up to 12 months.

Benefits

- Helps prevent tank and fuel line corrosion
- Helps prevent water contamination and condensation
- Stabilises E10 and E85 fuel for up to 12 months
- Cleans injectors and intake valves
- Removes deposit formations
- One bottle treats up to 60 litres

Directions for Use

DIRECTIONS FOR USE:

For best results add one bottle of Nulon Ethanol Fuel Treatment to 60 litres of fuel (5ml/L) prior to, or after, filling, every 5,000km. For ongoing maintenance and corrosion protection add 300ml for up to 60 litres of fuel, or 5ml per litre of fuel.

First Aid

SAFETY DIRECTIONS: Avoid contact with eyes or skin. **DO NOT SWALLOW.** Keep out of reach of children. Combustible. Keep away from heat or flame. Do not breathe vapour. Wash hands thoroughly after use. Not to be used as a food container.

FIRST AID INSTRUCTIONS: For advice, contact a Poisons Information Centre (Phone e.g. Australia 131 126; New Zealand 0800 764 766) or a doctor (at once). If swallowed, do NOT induce vomiting. If in eyes, hold eyelids apart and flush the eye continuously with running water. If skin contact occurs, flush with running water.
