

Full Synthetic 0W-20 Racing Oil (NR0W20)

- High anti-wear protection package (Zinc + Moly DTC = 2300PPM)
- Suitable for race and highly modified street engines
- Durable shear stable formula
- High temperature protection
- Advanced Group IV Poly Alpha Olefin (PAO)
- Advanced Group V Alkylated Naphthalene (AN)

Nulon Full Synthetic 0W-20 Racing Oil is recommended for use in high performance turbo charged, multi-cam, multi-valve, naturally aspirated, 4 cylinder and larger race and highly modified street engines. Advanced Group IV Poly Alpha Olefin (PAO) and Advanced Group V Alkylated Naphthalene (AN) base oils provide shear stable protection from cold start up to extreme temperatures. Nulon Full Synthetic 0W-20 Racing Oil provides the ultimate protection at extreme operating temperatures and enhanced protection for all fuel types. Ideal for vehicles using E85 and other high performance fuels.

Nulon Full Synthetic 0W-20 Racing Oil contains Molybdenum Dithiocarbamate (Moly DTC), which is scientifically proven to dramatically reduce friction, provide increased protection against engine wear and maximise engine power.

Benefits

- Shear stable racing formula for ultimate high-temperature stability.
- Maintain oil pressure under the most extreme racing conditions.
- Enhanced protection for vehicles using E85 and other high-performance fuels.
- Contains Moly DTC proven to reduce friction, reduce wear and achieve maximum engine power.

Which Oil for me?

Many race car engines begin their life in a street vehicle. From humble beginnings, the search begins to build power and go racing. Through modification, after modification, the quest to achieve a strong reliable race engine must involve choosing the right engine oil for your specific application. Below is a guide to selecting the right oil for your race engine. Begin with the original oil viscosity recommendation as per a standard factory engine and then adjust based upon how mild, or wild, you get with your modifications in the search for power.

Original Engine Oil Recommendation	Nulon Race Oil Recommendation		
	Stock Engine	Mild Mods*	Wild Mods**
0W-20, 5W-20	NR0W20	NR5W30	NR5W40
0W-30, 5W-30, 10W-30	NR5W30	NR5W40	NR5W50
0W-40, 5W-40, 10W-40, 15W-40	NR5W40	NR5W50	NR10W60
0W-50, 5W-50, 10W-50, 15W-50, 20W-50	NR5W50	NR10W60	
10W-60	NR10W60		

* Modifications with up to 20% power increase

** Modifications with over 20% power increase

Caution

NOTE: Not recommended for vehicles fitted with catalytic converters.

CAUTION: Avoid skin contact with used oil. Wear suitable gloves. If skin contact occurs, wash immediately with soap and water. Avoid prolonged and repeated contact with used oil. Protect the environment. Do not pollute drains, ground or water with used oil. Dispose of container as per EPA guidelines. Do not use this container for fuel or solvents.

Meets or exceeds the following oil industry specifications	
Blend Type	Full Synthetic
Moly DTC	Contains Moly DTC
Society of Automotive Engineers	SAE 0W-20

Pack Sizes

Part No: NR0W20-5
5 litres - 2 per carton
