

Petrol Engine Full Synthetic Top-Up Oil (PFTSU)

In daily stop/start driving it is not uncommon for modern engines to consume a small amount of engine oil.

Nulon Full Synthetic Top-Up Oil has been formulated to be used specifically in top-up applications where a full synthetic petrol engine oil is recommended. The advanced formulation promotes engine cleanliness and is compatible with a wide range of modern petrol vehicles.

Benefits

- High protection full synthetic formulation
- Compatible with all brands and types of engine oils
- Keeps your engine clean and prevents sludge formation
- Suitable for vehicles requiring the following viscosities:
 - » 5W-30
 - » 5W-40
 - » 10W-30
 - » 15W-40

Directions for use

DIRECTIONS FOR USE: Add Nulon Top-Up engine oil to your engine when a top-up is required. Follow your vehicle's owners manual for instructions. This product is designed for use in top-up applications between recommended oil change intervals.

Caution

CAUTION: Avoid skin contact with used oils. Wear suitable gloves. If skin contact occurs, wash immediately with soap and water. Protect the environment. Do not pollute drains, ground or water with used engine. Do not reuse this container.

FIRST AID: For advice contact a Poisons Information Centre (Phone: Australia 131 126; New Zealand 0800 764 766) or doctor (at once).
