

Upper Cylinder Lubricant & Injector Cleaner (NUCL)

Nulon Upper Cylinder Lubricant & Injector Cleaner has been formulated to provide superior lubricity and cleaning power to eliminate hard starting, rough running, flats spots on acceleration and poor fuel economy in carburettor and petrol injection systems.

Nulon Upper Cylinder Lubricant & Injector Cleaner provides maximum upper cylinder lubrication and uses the latest technology to provide unsurpassed valve and valve seat protection.

It can also be used in vehicles running on unleaded petrol where additional upper cylinder lubrication is required.

Benefits

- Lubricates piston rings
- Reduces valve seat burning and wear
- Cleans upper cylinder deposits, carburettor and injectors
- Cleans intake valve deposits for easier starting
- Improves fuel economy
- Lead substitute
- Protects pre-1986 petrol engines
- Safe for all petrol cars

Directions for use

90ml treats 60 litres (1.5ml per litre). Add to fuel prior to or after filling the fuel tank. This ratio will give protection to all engines under normal everyday driving conditions. For towing or racing and to exceed the Australian Standard AS4430.1-1996, use 3ml per litre.

First Aid Instructions

FIRST AID: For advice, contact a Poisons Information Centre (Phone e.g. Australia 131 126; New Zealand 0800 764 766) or a doctor (at once).
