

## Full Synthetic Multi-Vehicle CVT Transmission Fluid

Nulon Full Synthetic Multi-Vehicle CVT Transmission Fluid has been formulated to provide the ultimate protection for belt driven and chain driven transmissions.

Premium base oils, long-life friction modifiers, anti-wear additives and shear stable viscosity modifiers deliver improved fuel economy and high temperature protection.

The advanced formulation promotes superior friction stability for smooth constant shifting while a strong oil film assists in preventing metal to metal contact between rotating parts.

### Benefits

- Full Synthetic formula for premium protection and performance
- Suits a wide range of vehicles
- Suitable for Chain and Belt Driven CVT

### Typical Properties

#### Typical Properties:

|                                    |        |
|------------------------------------|--------|
| KV @ 100°C, cSt                    | 7.30   |
| KV @ 40°C, cSt                     | 34.60  |
| Viscosity Index                    | 183    |
| Density @ 15°C g/mL                | 0.8474 |
| Brookfield Viscosity @ -40°C, mPas | 12500  |

Due to continued product research and development the information contained in this Product Bulletin is subject to change without notification.

### Notes/Caution

NOTE: Not suitable for early model CVT applications with starting clutches. Refer to owners manual for correct fluid recommendation.

CAUTION: Avoid skin contact with used engine oils. Wear suitable gloves. If skin contact occurs, wash immediately with soap and water. Avoid prolonged and repeated contact with used oil. Protect the environment. Do not pollute drains, ground or water with used engine oils. Dispose of container as per EPA guidelines. Do not use this container for fuel or solvents.
